

FINANCIAL STATEMENTS

Independent Auditors' Report on the Ind AS Financial Statements

To the Members of **Bajaj Housing Finance Ltd.**

Opinion

We have audited the accompanying Ind AS financial statements of Bajaj Housing Finance Ltd. ('the Company'), which comprise the Balance sheet as at 31 March 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of matter

We draw attention to note 3 to the Ind AS financial statements, which describes the uncertainty caused by Novel Coronavirus (COVID-19) pandemic with respect to the Company's estimates of impairment of loans to customers and that such estimates may be affected by the severity and duration of the pandemic. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended 31 March 2020. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Independent Auditors' Report on the Ind AS Financial Statements (Contd.)

Key audit matters

How our audit addressed the key audit matter

(a) Impairment of financial assets as at balance sheet date (expected credit losses)

(as described in note 7 of the Ind AS financial statements)

Ind AS 109 requires the Company to provide for impairment of its loan receivables (designated at amortised cost and fair value through other comprehensive income) using the expected credit loss (ECL) approach. ECL involves an estimation of probability-weighted loss on financial instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's loans and advances.

In the process, a significant degree of judgement has been applied by the management for:

- Staging of loans (i.e. classification in 'significant increase in credit risk' ('SICR') and 'default' categories);
- Grouping of borrowers based on homogeneity by using appropriate statistical techniques;
- Estimation of behavioral life;
- Determining macro-economic factors impacting credit quality of receivables;
- Estimation of losses for loan products with no/minimal historical defaults.

Additional considerations on account of COVID-19

Pursuant to the Reserve Bank of India circular dated 27 March 2020 ('RBI circular') allowing lending institutions to offer moratorium to borrowers on payment of instalments falling due between 1 March 2020 and 31 May 2020, the Company has extended moratorium to its borrowers in accordance with its Board approved policy.

In management's view and considering the guidance provided by the Institute of Chartered Accountants of India, providing moratorium to borrowers at a mass scale, based on RBI directives, by itself is not considered to result in a SICR for such borrowers. The Company has recorded a management overlay of around ₹ 50 crore as part of its ECL, to reflect among other things an increased risk of deterioration in macro-economic factors caused by COVID-19 pandemic. Given the unique nature and scale of the economic impact of this pandemic, and its timing being close to the year-end, the management overlay is based on various uncertain variables, which could result in actual credit loss being different than that being estimated.

In view of the high degree of management's judgement involved in estimation of ECL, accentuated by the COVID-19 pandemic, it is a key audit matter.

(b) IT systems and controls

Financial accounting and reporting processes, especially in the financial services sector, are fundamentally reliant on IT systems and IT controls to process significant transaction volumes, hence we identified IT systems and controls over financial reporting as a key audit matter for the Company.

Automated accounting procedures and IT environment controls, which include IT governance, general IT controls over program development and changes, access to programs and data and IT operations, are required to be designed and to operate effectively to ensure reliable financial reporting.

- Read and assessed the Company's accounting policies for impairment of financial assets and their compliance with Ind AS 109 and the governance framework approved by the Board of Directors pursuant to Reserve Bank of India guidelines issued on 13 March 2020.
- Read and assessed the Company's policy with respect to moratorium pursuant to the RBI circular and tested the implementation of such policy on a sample basis.
- Evaluated the reasonableness of the management estimates by understanding the process of ECL estimation and related assumptions and tested the controls around data extraction and validation.
- Assessed the criteria for staging of loans based on their past-due status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any SICR or loss indicators were present requiring them to be classified under stage 2 or 3.
- Assessed the additional considerations applied by the management for staging of loans as SICR or default categories in view of Company's policy on moratorium.
- Tested the ECL model, including assumptions and underlying computation. Assessed the floor/minimum rates of provisioning applied by the Company for loan products with inadequate historical defaults.
- Tested assumptions used by the management in determining the overlay for macro-economic factors (including COVID-19 pandemic).
- Assessed disclosures included in the Ind AS financial statements in respect of expected credit losses including the specific disclosures made with regards to the impact of COVID-19 on ECL estimation.

- We tested the design and operating effectiveness of the Company's IT access controls over the information systems that are important to financial reporting and various interfaces, configuration and other identified application controls.
- We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing requests for access to systems were reviewed and authorised.
- We tested the Company's periodic review of access rights. We also tested requests of changes to systems for approval and authorisation.
- In addition to the above, we tested the design and operating effectiveness of certain automated controls that were considered as key internal controls over financial reporting.

Independent Auditors' Report on the Ind AS Financial Statements (Contd.)

Other information

The other information comprises the information included in the Annual report but does not include the Ind AS financial statements and our auditor's report thereon. The Company's Board of Directors is responsible for the other information.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

Independent Auditors' Report on the Ind AS Financial Statements (Contd.)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended 31 March 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure 1' a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of section 164(2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with

Independent Auditors' Report on the Ind AS Financial Statements (Contd.)

reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in 'Annexure 2' to this report;

- (g) In our opinion, the managerial remuneration for the year ended 31 March 2020 has been paid/provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements – Refer Note 37 to the Ind AS financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 to Independent Auditors' Report

Annexure 1 referred to in paragraph 1 under the heading 'Report on other legal and regulatory requirements' of our report of even date

Re: Bajaj Housing Finance Ltd.

- (1) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) Fixed assets have been physically verified by the management during the year and no material discrepancies were identified on such verification.
 - (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment/fixed assets are held in the name of the Company.
- (2) The Company's business does not involve inventories and, accordingly, the requirements under clause 3(ii) of the Order are not applicable to the Company and hence not commented upon.
- (3) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (4) In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees, and securities granted in respect of which provisions of section 185 and 186 of the Act are applicable and hence not commented upon.
- (5) The Company has not accepted any deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (6) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under section 148(1) of the Act, for the services of the Company.
- (7) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues applicable to the Company have generally been regularly deposited with the appropriate authorities.

With respect to certain dues of profession tax, we are informed by the management that, due to the nationwide lock-down imposed by the Central Government on account of COVID-19, the Company has either been unable to deposit the dues with the appropriate authorities or the physical payment challans of the dues deposited are currently not retrievable from the respective locations for examination. Accordingly, we are unable to comment on the regularity of deposit of the profession tax dues by the Company in respect of the months of February and March 2020.

- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues applicable to the Company were outstanding, at the year end, for a period of more than six months from the date they became payable.
 - (c) According to the information and explanations given to us, there are no dues of income tax, sales-tax, service tax, customs duty, excise duty, value added tax, goods and services tax and cess which have not been deposited on account of any dispute.
- (8) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowings to a financial institution or bank or dues to debenture holders.

Annexure 1 to Independent Auditors' Report (Contd.)

- (9) According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer or further public offer.

Further, monies raised by the Company by way of term loans were applied for the purpose for which those were raised, though idle/surplus funds which were not required for immediate utilisation were gainfully invested in liquid assets payable on demand.

- (10) Based upon the audit procedures performed for the purpose of reporting on the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no material fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (11) According to the information and explanations given by the management, the managerial remuneration has been paid/ provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (12) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.
- (13) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (14) According to the information and explanations given to us and on an overall examination of the balance sheet, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the company and, not commented upon.
- (15) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of the Act.
- (16) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

Annexure 2 to Independent Auditors' Report

Annexure 2 referred to in paragraph 2 (f) under the heading 'Report on other legal and regulatory requirements' of our report of even date

Report on Internal Financial Controls under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (the 'Act')

We have audited the internal financial controls over financial reporting of Bajaj Housing Finance Ltd. (the 'Company') as of 31 March 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's responsibility for internal financial controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Ind AS financial statements.

Meaning of internal financial controls over financial reporting with reference to these Ind AS financial statements

A company's internal financial control over financial reporting with reference to these Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure 2 to Independent Auditors' Report (Contd.)

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls over financial reporting with reference to these Ind AS financial statements and such internal financial controls over financial reporting with reference to these Ind AS financial statements were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements for the year ended 31 March 2020

1 Corporate information

The Company (earlier known as 'Bajaj Financial Solutions Ltd.')

was incorporated as a subsidiary of Bajaj Finserv Ltd. ('BFS') on 13 June 2008, is a company limited by shares and domiciled as well as having its operations in India. The Company was acquired by Bajaj Finance Ltd. (BFL) from BFS in November 2014 to conduct housing finance business in a dedicated subsidiary company and accordingly the Company's name was changed to Bajaj Housing Finance Ltd. (BHFL) on 14 November 2014. It got registered with National Housing Bank ('NHB') as a non deposit taking Housing Finance Company vide certificate no 09.0127.15 on 24 September 2015. BHFL is a 100% subsidiary of BFL and started its operation in financial year 2017-18 (FY2018). The Company has a diversified lending model and focuses on six broad categories viz: (i) home loans, (ii) loan against property (iii) lease rental discounting, (iv) developer loans, (v) rural mortgage loans and (vi) unsecured loans. The Company has its registered office at Akurdi, Pune Maharashtra, India and its principal place of business is at 5th floor, B2 Building, Cerebrum IT Park, Kalyani Nagar, Pune Maharashtra, India.

The audited financial statements were subject to review and recommendation of Audit Committee and approval of Board of Directors. On 18 May 2020, Board of Directors of the Company approved and recommended the audited financial statements for consideration and adoption by the shareholders in its Annual General Meeting.

2 Basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act and Master Circular - The Housing Finance Companies (NHB) Directions, 2010 ('Master Directions') issued by NHB. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are presented in Indian Rupee (INR) which is also functional currency of the Company.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources. The outbreak of COVID-19 has not affected the going concern assumption of the Company.

Disclosures as required in terms of Housing Finance Companies – Corporate Governance (National Housing Bank) Directions, 2016 as amended are prepared under previous GAAP to comply with Policy Circular NHB (ND)/DRS/Policy Circular No.89/2017-18 June 14, 2018 issued by NHB on Implementation of Indian Accounting Standards (Ind AS) which requires Housing Finance Companies to follow the extant provisions of National Housing Bank Act 1987 and Housing Finance Companies (NHB) Directions 2010 including framework on Prudential Norms, and other related Circulars etc., issued in this regard by the NHB from time to time for regulatory & supervisory purposes, including various kinds of reporting to the National Housing Bank (NHB). HFCs are also required to provide adequate disclosures/statements for furnishing compliance in the aforesaid matter in the notes forming part of the financial statements of the HFC.

3 Presentation of Financial Statements

The Company presents its balance sheet in order of liquidity.

The Company prepares and present its Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the format prescribed in the Division III of Schedule III to the Act as amended from time to time. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows' as amended from time to time.

The Company generally reports financial assets and financial liabilities on a gross basis in the balance sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

3 Presentation of Financial Statements (Contd.)

Critical accounting estimates and judgements:

The preparation of the Company's financial statements requires Management to make use of estimates and judgements. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgements are used in various line items in the financial statements for e.g.:

- i) Business model assessment [Refer note no. 4.4.(i)]
- ii) Fair value of financial instruments (Refer note no. 4.15, 42, and 43)
- iii) Effective interest rate (EIR) [Refer note no. 4.1.(i)]
- iv) Impairment on financial assets [Refer note no. 4.4.(i), 7, 44]
- v) Provisions and other contingent liabilities [Refer note no. 4.10 and 37(a)]
- vi) Provision for tax expenses (Refer note no. 4.6)
- vii) Residual value, useful life and indicators of impairment and recoverable value of property, plant and equipment (Refer note no. 4.7)

Estimation of impairment allowance under COVID-19 pandemic

Estimates and associated assumptions, especially for determining the impairment allowance for Company's financial assets (loan receivables and investments), are based on historical experience and other emerging factors on account of the pandemic which may also have an effect on the expected credit loss. The Company believes that the factors considered are reasonable under the current circumstances. The Company has used early indicators of moratorium and delayed payment metrics observed along with an estimation of potential stress on probability of default and exposure at default due to COVID-19 situation in developing the estimates and assumptions to assess the expected credit losses on loans. Given the dynamic nature of the pandemic situation, these estimates are subject to uncertainty and may be affected by the severity and duration of the pandemic.

4 Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Income

(i) Interest income

The Company recognises interest income using effective interest rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets (as set out in note no. 4.4 (i)) regarded as 'Stage 3', the Company recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired (as outlined in note no. 4.4 (i)), the Company reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non payment of contractual cashflows is recognised on realisation.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.1 Income (Contd.)

(ii) Dividends

Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Other revenue from operations

The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 - 'Financial instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 - 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(a) Fees and commission

The Company recognises service and administration charges towards rendering of additional services to its loan customers on satisfactory completion of service delivery.

Fees on value added services and products are recognised on rendering of services and products to the customer.

Distribution income is earned by selling of services and products of other entities under distribution arrangements. The income so earned is recognised on successful sales on behalf of other entities subject to there being no significant uncertainty of its recovery.

Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognised on realisation.

(b) Net gain on fair value changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis.

(c) Sale of services

The Company, on de-recognition of financial assets where a right to service the derecognised financial assets for a fee is retained, recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit and loss and, correspondingly creates a service asset in balance sheet. Any subsequent increase in the fair value of service assets is recognised as service income and any decrease is recognised as an expense in the period in which it occurs. The embedded interest component in the service asset is recognised as interest income in line with Ind AS 109 - 'Financial instruments'.

Other revenues on sale of services are recognised as per Ind AS 115 - 'Revenue from contracts with customers' as articulated above in 'other revenue from operations'.

(d) Recoveries of financial assets written off

The Company recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.1 Income (Contd.)

(iv) Other Income

Other income is accounted on accrual basis, except in case of significant uncertainties.

(v) Taxes

Incomes are recognised net of the goods and services tax, wherever applicable.

4.2 Expenditures

(i) Finance Cost

Borrowing costs on financial liabilities is recognised using the EIR method (Refer note no. 4.1.(i)).

(ii) Fees and commission expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the statement of profit and loss on an accrual basis.

(iii) Taxes

Expenses are recognised net of the goods and services tax, except where credit for the input tax is not statutorily permitted.

4.3 Cash and cash equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

4.4 Financial instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

Date of recognition

All the financial instruments are recognised on the date when the Company becomes party to the contractual provisions of the financial instruments. For tradable securities, the Company recognises the financial instruments on settlement date.

(i) Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

Initial measurement

All financial assets are recognised initially at fair value including transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at FVTPL where the transaction costs are charged to profit or loss.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.4 Financial instruments (Contd.)

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified into four categories:

- a) Debt instruments at amortised cost
- b) Debt instruments at FVOCI
- c) Debt instruments at FVTPL
- d) Equity instruments designated at FVOCI
- a) Debt instruments at amortised cost:

The Company measures its financial assets at amortised cost if both the following conditions are met:

- The asset is held within a business model of collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the nature of portfolio, and the period for which the interest rate is set.

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated financial assets going forward.

The business model of the Company for assets subsequently measured at amortised cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios on the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies.

After initial measurement, such financial assets are subsequently measured at amortised cost on Effective Interest Rate (EIR). For further details, refer note no. 4.1(i). The expected credit loss (ECL) calculation for debt instruments at amortised cost is explained in subsequent notes in this section.

- b) Debt instruments at FVOCI:

The Company subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in the Other Comprehensive Income (OCI). The interest income on these assets are recognised in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.4 Financial instruments (Contd.)

Debt instruments such as mortgage loans portfolio where the Company periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from other comprehensive income to P&L.

c) Debt instruments at FVTPL:

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the balance sheet at fair value. Interest and dividend income is recorded in interest income and dividend income respectively according to the terms of the contract, or when the right to receive the same has been established. Gain and losses on changes in fair value of debt instruments are recognised on net basis through profit or loss.

The Company's investments into mutual funds, commercial papers and certificate of deposits for trading and short term cash flow management have been classified under this category.

d) Equity investments designated under FVOCI:

All equity investments in scope of Ind AS 109 - 'Financial instruments' are measured at fair value. The classification is made on initial recognition and is irrevocable.

All fair value changes of the equity instruments, excluding dividends, are recognised in OCI and not available for reclassification to profit or loss, even on sale of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

Derecognition of Financial Assets:

The Company derecognises a financial asset (or, where applicable, a part of a financial asset) when:

- a) The rights to receive cash flows from the asset have expired; or
- b) The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognised, the Company does not have any continuing involvement in the same.

The Company transfers its financial assets through the partial assignment route and accordingly derecognises the transferred portion as it neither has any continuing involvement in the same nor does it retain any control. If the Company retains the right to service the financial asset for a fee, it recognises either a servicing asset or a servicing liability for that servicing contract. A service liability in respect of a service is recognised at fair value if the fee to be received is not expected to compensate the Company adequately for performing the service. If the fees to be received is expected to be more than adequate compensation for the servicing, a service asset is recognised for the servicing right at an amount determined on the basis of an allocation of the carrying amount of the larger financial asset.

On derecognition of a financial asset in its entirety, the difference between:

- The carrying amount (measured at the date of derecognition) and
- The consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

Financial Assets subsequently measured at amortised cost are generally held for collection of contractual cashflow. The Company on looking at economic viability of certain portfolios measured at amortised cost may enter into immaterial and infrequent transaction of sale of portfolio which doesn't affect the business model of the Company.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.4 Financial instruments (Contd.)

Impairment on financial assets:

Expected Credit losses ('ECL') are recognised for financial assets held under amortised cost, debt instruments measured at FVOCI, and certain loan commitments.

Financial assets where no significant increase in credit risk has been observed are considered to be in 'stage 1' and for which a 12 month ECL is recognised. Financial assets that are considered to have significant increase in credit risk are considered to be in 'stage 2' and those which are in default or for which there is an objective evidence of impairment are considered to be in 'stage 3' for which a lifetime ECL is recognised.

At initial recognition, allowance (or provision in the case of loan commitments) is required for ECL towards default events that are possible in the next 12 months, or less, where the remaining life is less than 12 months.

In the event of a significant increase in credit risk or default, allowance (or provision) is required for ECL towards all possible default events over the expected life of the financial instrument ('lifetime ECL').

Financial assets (and the related impairment allowances) are written off in full, when there is no realistic prospect of recovery.

The treatment of the different stages of financial assets and the methodology of determination of ECL is set out below.

a) Credit impaired/default (stage 3)

The Company recognises a financial asset to be credit impaired and in stage 3 by considering relevant objective evidence, primarily whether:

- Contractual payments of either principal or interest are past due for more than 90 days;
- The loan is otherwise considered to be in default.

Restructured loans where repayment terms are renegotiated as compared to the original contracted terms due to significant credit distress of the borrower are classified as credit impaired. Such loans continue to be in stage 3 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period, typically 12 months post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 or 2 and a fresh assessment of the risk of default be done for such loans.

Interest income is recognised by applying the effective interest rate to the net amortised cost amount i.e. gross carrying amount less ECL allowance.

b) Significant increase in credit risk (stage 2)

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting period by considering the change in the risk of default of the loan exposure. However, unless identified at an earlier stage, 30 days past due is considered as an indication of financial assets to have suffered a significant increase in credit risk. Based on other indications such as borrower's frequently delaying payments beyond due dates though not 30 days past due are included in stage 2 for mortgage loans.

The measurement of risk of defaults under stage 2 is computed on homogenous portfolios, generally by nature of loans, tenors, underlying collateral, geographies and borrower profiles. The default risk is assessed using PD (probability of default) derived from past behavioural trends of default across the identified homogenous portfolios. These past trends factor in the past customer behavioural trends, credit transition probabilities and macroeconomic conditions. The assessed PDs are then aligned considering future economic conditions that are determined to have a bearing on ECL.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.4 Financial instruments (Contd.)

c) Without significant increase in credit risk since initial recognition (stage 1)

ECL resulting from default events that are possible in the next 12 months are recognised for financial instruments in stage 1. The Company has ascertained default possibilities on past behavioural trends witnessed for each homogenous portfolio using application/behavioural score cards and other performance indicators, determined statistically.

d) Measurement of ECL

The assessment of credit risk and estimation of ECL are unbiased and probability weighted. It incorporates all information that is relevant including information about past events, current conditions and reasonable forecasts of future events and economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money. Forward looking economic scenarios determined with reference to external forecasts of economic parameters that have demonstrated a linkage to the performance of our portfolios over a period of time have been applied to determine impact of macro economic factors.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD). ECL is calculated by multiplying the PD, LGD and EAD and adjusted for time value of money using a rate which is a reasonable approximation of EIR.

- Determination of PD is covered above for each stages of ECL.
- EAD represents the expected balance at default, taking into account the repayment of principal and interest from the balance sheet date to the date of default together with any expected drawdowns of committed facilities.
- LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

(ii) Financial liabilities

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial assets to another entity, or a contract that may or will be settled in the entities own equity instruments. few examples of financial liabilities are trade payables, debt securities and other borrowings.

Initial measurement:

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement:

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the EIR method (Refer note no 4.1 (i)). Any gains or losses arising on derecognition of liabilities are recognised in profit or loss.

Derecognition:

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.5 Investment in subsidiaries

Investment in subsidiaries are recognised at cost and are not adjusted to fair value at the end of each reporting period. Cost of investment represents amount paid for acquisition of the said investments.

The Company assesses at the end of each reporting period, if there are any indications that the said investments may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

4.6 Taxes

(i) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognised outside the profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

4.7 Property, plant and equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 - 'Property, plant and equipment'.

Depreciation on property, plant and equipment:

- (a) Depreciation is provided on a pro-rata basis for all tangible assets on straight line method over the useful life of assets, except buildings which is determined on written down value method.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.7 Property, plant and equipment (Contd.)

- (b) Useful lives of assets are determined by the Management by an internal technical assessment except where such assessment suggests a life significantly different from those prescribed by Schedule II – Part C of the Companies Act, 2013 where the useful life is as assessed and certified by a technical expert.
- (c) Depreciation on leasehold improvements is provided on straight line method over the primary period of lease of premises or 5 years whichever is less.
- (d) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.

- (e) Tangible assets which are depreciated over useful life different than those indicated in Schedule II are as under:

Nature of assets	Useful life as per Schedule II	Useful life adopted by the Company
Motor vehicles	8 years	4 years

- (f) Assets having unit value upto ₹ 5,000 is depreciated fully in the financial year of purchase of asset.
- (g) An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the statement of profit and loss when the asset is derecognised.
- (h) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

4.8 Intangible assets and amortisation thereof

Intangible assets, representing softwares are initially recognised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment. The intangible assets are amortised using the straight line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of Intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

4.9 Impairment on non-financial assets

An assessment is done at each balance sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

4.10 Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

4.11 Foreign currency translation

Initial recognition:

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.11 Foreign currency translation (Contd.)

Conversion:

Foreign currency monetary items are re-translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

Exchange differences:

All exchange differences are accounted in the Statement of Profit and Loss.

4.12 Retirement and other employee benefits

- (i) Gratuity: Payment for present liability of future payment of gratuity is made to the approved gratuity fund viz. Bajaj Auto Ltd. gratuity fund trust, which covers the same under cash accumulation policy and debt fund of the Life Insurance Corporation of India (LIC) and Bajaj Allianz Life Insurance Company Ltd. (BALICL). However, any deficits in Plan Assets managed by LIC and BALICL as compared to actuarial liability determined by an appointed Actuary using the projected unit credit method are recognised as a liability. Gains or losses through remeasurements of the net defined benefit liability/(assets) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. The effect of any planned amendments are recognised in statement of profit and loss. Remeasurements are not reclassified to profit or loss in subsequent periods.
- (ii) Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (e.g., Employees' Provident Fund Organisation (EPFO)) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. Since the Company pays all Provident fund & Pension fund contributions to EPFO, no actuarial assumptions are required to measure the obligation or the expense and there is no possibility of any actuarial gain or loss. Moreover, the obligations are measured on an undiscounted basis, except where they are not expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service.
- (iii) Compensated absences: Privilege leave entitlements are recognised as a liability as per the rules of the Company. The liability for accumulated leaves which can be availed and/or encashed at any time during the tenure of employment is recognised using the projected unit credit method at the actuarially determined value by an appointed actuary. The liability for accumulated leaves which is eligible for encashment within the same calendar year is provided for at prevailing salary rate for the entire unavailed leave balance as at the balance sheet date.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

4.13 Employee Stock Option Scheme

The Holding Company operates Employee Stock Option Scheme through a trust formed for the purpose and had issued ESOPs to the employees of the Company.

The cost of transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. The cost is recognised in employee benefits expenses together with a corresponding increase in capital contribution from Holding Company in other equity, over the period in which the service conditions are fulfilled.

4.14 Leases

With effect from 1 April 2019, the Company has applied Ind AS 116 'Leases' for all long term and material lease contracts covered by the Ind AS. The Company has adopted modified retrospective approach as stated in Ind AS 116 for all applicable leases on the date of adoption.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

4 Summary of significant accounting policies (Contd.)

4.14 Leases (Contd.)

Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payment discounted using the Company's incremental cost of borrowing rate and directly attributable cost. Subsequently, the lease liability is

- (i) increased by interest on lease liability;
- (ii) reduce by lease payment made; and
- (iii) remeasured to reflect any reassessment or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.

Measurement of Right-of-Use assets

At the time of initial recognition, the Company measures 'Right-of-Use assets' as present value of all lease payment discounted using the Company's incremental cost of borrowing rate w.r.t said lease contract. Subsequently, 'Right-of-Use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re-measurement of the lease liability specified in Ind AS 116 'Leases'.

Depreciation on 'Right-of-Use assets' is provided on straight line basis over the lease period.

The exception permitted in Ind AS 116 for low value assets and short term leases has been adopted by Company.'

4.15 Fair value measurement

The Company measures its qualifying financial instruments at fair value on each balance sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole. For a detailed information on the fair value hierarchy, refer note no. 42 and 43.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

Total appropriations	84.27	21.96
Balance as at the end of the year (C)	417.36	81.90

Notes to financial statements for the year ended 31 March 2020 (Contd.)

20 Other equity (Contd.)

Particulars	(₹ In Crore)	
	As at 31 March	
	2020	2019
(D) Capital Contribution from Holding-ESOPs		
Balance as at the beginning of the year	-	-
Add: fair value of stock options issued by holding company	7.05	-
Balance as at the end of the year (D)	7.05	-
Total (A+B+C+D)	701.80	108.35

Nature and purpose of other equity

i. Securities premium

Securities premium is used to record the premium on issue of shares. It can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

ii. Statutory Reserve in terms of section 29C of the National Housing Bank Act, 1987

Reserve Fund is created as per the section 29C of the National Housing Bank Act, 1987, which requires every housing finance company to create a reserve fund and transfer therein a sum not less than twenty percent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared. This includes Special Reserve created to avail the deduction as per the provisions of section 36(1)(viii) of the Income Tax Act, 1961 on profits derived from the business of providing long-term finance for construction or purchase of houses in India for residential purposes

iii. Retained earnings

Retained earnings represents the surplus in profit and loss account after appropriation. The Company recognises change on account of remeasurement of the net defined benefit liability (asset) as part of retained earnings with separate disclosure, which comprises of:

- (a) actuarial gains and losses; and
- (b) return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset).

iv. Capital Contribution from Holding-ESOPs

Represents fair value of ESOPs issued by the Holding Company to the employees of the Company.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

20 Other equity (Contd.)**v. Other comprehensive income****On loans**

The Company recognises changes in the fair value of loans measured under FVOCI in other comprehensive income and impairment loss allowances are recognised in profit or loss. The table gives details of movement of fair value changes:

32 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares of the Company.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the year ended 31 March	
	2020	2019
(A) Net profit attributable to equity shareholders (₹ In Crore)	421.33	109.80
(B) Weighted average number of equity shares for basic and diluted earnings per share	3,754,007,285	2,100,684,932
Earning per share (basic and diluted) (₹) (A/B)	1.12	0.52

Notes to financial statements for the year ended 31 March 2020 (Contd.)

33 Segment Information

The Company operates in a single reportable segment i.e. financing, since the nature of the loans are exposed to similar risk and return profiles hence they are collectively operating under a single segment. The Company operates in a single geographical segment i.e. domestic.

34 Transfer of financial assets that are derecognised in their entirety where the Company has continuing involvement

The Company has not transferred any assets that are derecognised in their entirety where the Company continues to have continuing involvement.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

40 Capital

The Company actively manages its capital base to cover risks inherent to its business and meets the capital adequacy requirements of the regulator, National Housing Bank. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by NHB.

(i) Capital management

Objective

The company's objective is to maintain appropriate levels of capital to support its business strategy taking into account the regulatory, economic and commercial environment. The company aims to maintain a strong capital base to support the risks inherent to its business and its growth strategy. The Company endeavors to maintain a higher capital base than the mandated regulatory capital at all times.

Planning

The Company's assessment of capital requirement is aligned to its planned growth which forms part of an annual operating plan which is approved by the Board and also a long range strategy. These growth plans are aligned to assessment of risks-which include credit, liquidity and interest rate.

The Company monitors its capital to risk-weighted assets ratio (CRAR) on a monthly basis through its assets liability management committee (ALCO).

The Company endeavours to maintain its CRAR higher than the mandated regulatory norm. Accordingly, increase in capital is planned well in advance to ensure adequate funding for its growth.

(ii) Regulatory capital

Particulars	As at 31 March	
	2020	2019
Tier I capital	5,495.58	3,626.71
Tier II capital	151.25	70.75
Total capital	5,646.83	3,697.46
Total risk weighted assets	22,450.99	14,324.25
Tier I CRAR	24.48%	25.32%
Tier II CRAR	0.67%	0.49%
Total CRAR	25.15%	25.81%

CRAR computed above is based on the financial statement of the Company as at and for the year ended March 31,2020 which complies in all material respects with previous GAAP, as noted by the Board of Directors for regulatory and supervisory purposes pursuant to the NHB Circular No. NHB (ND)/DRS/Policy Circular No. 89/2017-18 dated 14 June 2018.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

41 Events after reporting date

There have been no events after the reporting date that require adjustment/disclosure in these financial statements.

42 Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

This note describes the fair value measurement of both financial and non-financial instruments.

Valuation framework

The company has an internal fair value assessment team which assesses the fair values for assets qualifying for fair valuation.

The company's valuation framework includes:

- Benchmarking prices against observable market prices or other independent sources;
- Development and validation of fair valuation models using model logic, inputs, outputs and adjustments.

These valuation models are subject to a process of due diligence and validation before they become operational and are continuously calibrated. These models are subject to approvals by various functions including risk, treasury and finance functions. Finance function is responsible for establishing procedures, governing valuation and ensuring fair values are in compliance with accounting standards.

Valuation methodologies adopted

Fair values of financial assets, other than those which are subsequently measured at amortised cost, have been arrived at as under:

- Fair values of investments held for trading under FVTPL have been determined under level 1 (refer note no. 43) using quoted market prices of the underlying instruments;
- Fair values of investments under FVOCI have been determined under level 1 using quoted market prices of the underlying instruments;
- Fair value of loans held for a business model that is achieved by both collecting contractual cash flows and partially selling the loans through partial assignment to willing buyers and which contain contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest are measured at FVOCI. The fair value of these loans have been determined under level 3.

The Company has determined that the carrying values of cash and cash equivalents, trade receivables, short term loans, floating rate loans, trade payables, short term debts, borrowings, bank overdrafts and other current liabilities are a reasonable approximation of their fair value and hence their carrying value are deemed to be fair value.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

43 Fair value hierarchy

The company determines fair values of financial instruments according to the following hierarchy:

Level 1: valuation based on quoted market price: financial instruments with quoted prices for identical instruments in active markets that the Company can access at the measurement date.

Level 2: valuation using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

Level 3: valuation technique with significant unobservable inputs: financial instruments valued using valuation techniques where one or more significant inputs are unobservable.

Quantitative disclosures of fair value measurement hierarchy for assets as at 31 March 2020

(₹ In Crore)

44 Risk management objectives and policies**Risk Management Framework**

A summary of the major risks faced by the Company, its measurement, monitoring and management are described as under:

Nature of risk	Arising from	Executive governance structure	Measurement, monitoring and management of risk
Liquidity and funding risk	<p>Liquidity risk arises from mismatches in the timing of cash flows.</p> <p>Funding risk arises</p> <ul style="list-style-type: none"> • inability to raise incremental borrowings to fund business requirement or repayment obligations • when long term assets cannot be funded at the expected term resulting in cashflow mismatches; • amidst volatile market conditions impacting sourcing of funds from banks and money markets 	Board appointed Asset Liability Committee (ALCO)	<p>Liquidity and funding risk is:</p> <ul style="list-style-type: none"> • measured by identifying gaps in the structural and dynamic liquidity statements. • assessment of incremental borrowings required for meeting the repayment obligation as well as the Company's business plan in line with prevailing market conditions. • monitored by <ul style="list-style-type: none"> - assessment of the gap between available liquidity and the near term liabilities given current market liquidity conditions and evolving regulatory directions for HFCs. - a constant calibration of sources of funds in line with emerging market conditions in banking and money markets - periodic reviews by ALCO relating to the liquidity position and stress tests assuming varied 'what if' scenarios and comparing probable gaps with the liquidity buffers maintained by the Company. • managed by the Company's treasury team under the guidance of ALCO through various means like liquidity buffers, sourcing of long term funds, positive asset liability mismatch, keeping strong pipeline of sanctions and approvals from banks and assignment of loans.
Interest Rate Risk	Interest rate risk stems from movements in market factors, such as interest rates, credit spreads which impacts investments, income and the value of portfolios.	Board appointed Asset Liability Committee (ALCO)	<p>Interest rate risk is:</p> <ul style="list-style-type: none"> • measured using Valuation at Risk ('VaR'), and modified duration analysis and other measures, including the sensitivity of net interest income; • monitored by assessment of probable impacts of interest rate sensitivities under simulated stress test scenarios given range of probable interest rate movements on both fixed and floating assets and liabilities; and • managed by the Company's treasury team under the guidance of ALCO
Credit Risk	Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Company	Board appointed Risk Management Committee	<p>Credit risk is:</p> <ul style="list-style-type: none"> • measured as the amount at risk due to repayment default of a customer or counterparty to the Company. Various metrics such as EMI default rate, overdue position, collection efficiency, customers non-performing loans etc. are used as leading indicators to assess credit risk. • monitored by Risk management committee using level of credit exposures, portfolio monitoring, repurchase rate, bureau data of portfolio performance and industry, geographic, customer and portfolio concentration risks • managed by a robust control framework by the risk department which continuously align credit policies, obtaining external data from credit bureaus and reviews of portfolios and delinquencies by senior and middle management team comprising of risk, analytics, collection and fraud containment along with business. The same is periodically reviewed by the Board appointed risk management committee.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

44 Risk management objectives and policies (Contd.)

Liquidity and funding risk

The Company's ALCO monitors asset liability mismatches to ensure there are no imbalances or excessive concentrations on either side of the balance sheet.

The Company continuously monitors liquidity in the market; and as a part of its ALCO strategy, it maintains a liquidity buffer managed by an active investment desk to reduce this risk.

The Company maintains a judicious mix of borrowings from banks and money markets. The Company continues to diversify its sources of borrowings with an emphasis on longer tenor borrowings. This strategy of balancing varied sources of funds and long tenor borrowings has helped the Company maintain a healthy asset liability position. The Company continues to evaluate new sources of borrowing by way of new routes of funding like NHB refinance, External Commercial Borrowings (ECB), etc.

The table below summarises the maturity profile of the undiscounted cashflow of the Company's financial liabilities:

44 Risk management objectives and policies (Contd.)

Market risk

Market risk is the risk that the fair value of future cash flow of financial instruments will fluctuate due to changes in the market variables such as interest rates, foreign exchange rates and equity prices. The Company do not have any exposure to foreign exchange rate and equity price risk.

Interest rate risk

On Investments

The Company holds shorter duration investment portfolio and thus it has a minimum fair value change impact on its investment portfolio. The interest rate risk on the investment portfolio and corresponding fair value change impact is monitored using VaR and the parameters for monitoring the same are defined in its investment policy.

Sensitivity analysis as at 31 March 2020

(₹ In Crore)

Particulars	Carrying value	Fair value	Sensitivity to fair value	
			1% increase	1% decrease
Investment at FVTPL	2,508.02	2,508.02	(3.00)	3.00

Credit Risk

Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Company. The Company has a diversified lending model and focuses on six broad categories viz: (i) home loans, (ii) loan against property (iii) lease rental discounting, (iv) developer loans, (v) rural mortgage loans and (vi) unsecured loans. The Company assesses the credit quality of all financial instruments that are subject to credit risk.

Classification of financial assets under various stages

The Company classifies its financial assets in three stages having the following characteristics:

- Stage 1: unimpaired and without significant increase in credit risk since initial recognition on which a 12-month allowance for ECL is recognised;
- Stage 2: a significant increase in credit risk since initial recognition on which a lifetime ECL is recognised;
- Stage 3: objective evidence of impairment, and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised; and

Unless identified at an earlier stage, all financial assets are deemed to have suffered a significant increase in credit risk when they are 30 days past due ('DPD') and are accordingly transferred from stage 1 to stage 2. For stage 1 an ECL allowance is calculated based on a 12-month Point in Time ('PIT') probability weighted probability of default ('PD'). For stage 2 and 3 assets a life time ECL is calculated based on a lifetime PD.

The Company has calculated ECL using three main components: a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD) along with an adjustment considering forward macro economic conditions (for a detailed note for methodology of computation of ECL please refer to significant accounting policies note no 4.4 (i) to the financial statements).

Financial instruments other than loans were subjected to simplified ECL approach under Ind AS 109 - 'Financial instruments' and accordingly were not subject to sensitivity of future economic conditions.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

44 Risk management objectives and policies (Contd.)

The table below summarises the approach adopted by the Company for various components of ECL viz. PD, EAD and LGD across product lines using empirical data where relevant

Lending verticals	PD			EAD	LGD
	Stage 1	Stage 2	Stage 3		
Home loans	Use of statistical automatic interaction detector tools to identify PDs across a homogenous set of customers.			100%	Past trends of recoveries for each set of portfolios are discounted at reasonable approximation of the original effective rates of interest.
Loan against property					
Rural mortgage loans					
Lease rental discounting	External ratings or internal evaluation with a management overlay for each customer or customer industry segment.			EAD is computed given the time to default based on historic trends across rating profile	
Developer loans	Use of statistical automatic interaction detector tools to identify PDs across a homogenous set of customers.			EAD is computed based on past trends of proportion of outstanding at time of default to the outstanding on reporting date	
Other loans					

The table below summarises the gross carrying values and the associated allowance for expected credit loss (ECL) stage wise for loan portfolio:

As at 31 March 2020

(₹ In Crore)

Particulars	Secured			Unsecured		
	Stage 1	Stage 2	Stage 3	Stage 1	Stage 2	Stage 3
Gross carrying value	26,849.38	286.74	21.84	929.04	7.17	1.86
Allowance for ECL	83.89	21.73	7.91	5.12	0.87	1.10
ECL coverage ratio	0.31%	7.58%	36.22%	0.55%	12.13%	59.14%

As at 31 March 2019

(₹ In Crore)

Particulars	Secured			Unsecured		
	Stage 1	Stage 2	Stage 3	Stage 1	Stage 2	Stage 3
Gross carrying value	16,760.16	58.46	9.28	531.48	1.17	0.22
Allowance for ECL	21.44	3.19	3.27	1.11	0.11	0.09
ECL coverage ratio	0.13%	5.46%	35.24%	0.21%	9.40%	40.91%

Collateral valuation

The nature of products across these broad categories are either unsecured or secured by collateral. Although collateral is an important risk mitigant of credit risk, the Company's practice is to lend on the basis of its assessment of the customer's ability to repay rather than placing primary reliance on collateral. Based on the nature of product and the Company's assessment of the customer credit risk, a loan may be offered with suitable collateral. Depending on its form, collateral can have a significant financial effect in mitigating the Company's credit risk.

Notes to financial statements for the year ended 31 March 2020 (Contd.)

44 Risk management objectives and policies (Contd.)

The main types of collateral across various products obtained are as follows:

Product Group	Nature of securities
Home loans	Equitable mortgage of residential properties.
Loan against property	
Rural mortgage loans	Equitable mortgage of residential and commercial properties.
Lease rental discounting	
Developer loans	

The Company periodically monitors the market value of collateral and evaluates its exposure and loan to value metrics. The Company exercises its right to repossess properties mortgaged to it for delinquent customers. The repossessed assets are either sold or released to delinquent customers in case they come forward to settle their dues. The Company does not record repossessed assets on its balance sheet as non-current assets held for sale.

Analysis of Concentration Risk

The Company continues to grow its product offerings by expanding its geographic reach in order to reduce geographic concentrations while continually calibrating its product mix across its six categories of lending mentioned above.

Measurement uncertainty and sensitivity analysis of ECL estimates

Expected credit loss impairment allowances recognised in the financial statements reflect the effect of a range of possible economic outcomes, calculated on a probability-weighted basis and are based on the economic scenarios described below. The recognition and measurement of ECL involves the use of estimation. It is necessary to formulate multiple forward-looking economic forecasts and its impact as an integral part of ECL model.

Methodology

The Company has adopted the use of three scenarios, representative of its view of forecast economic conditions, required to calculate unbiased expected loss. They represent a most likely outcome i.e. central scenario and two less likely outer scenarios referred to as the upside and downside scenarios. The Company has assigned a 10% probability to the two outer scenarios, while the central scenario has been assigned an 80% probability. These weights are deemed appropriate for the unbiased estimation of impact of macro factors on ECL. The key scenario assumptions are used keeping in mind external forecasts and management estimates which ensure that the scenarios are unbiased.

The Company has used multiple economic factors and tested their correlations with past loss trends witnessed. The economic factors tested were GDP growth rates, growth of bank credit, wholesale price index (WPI), consumer price index (CPI), industrial production index, crude oil prices, exchange rate and policy interest rates. Based on past correlation trends, CPI and policy interest rates were the two factors having acceptable correlation with past loss trends which were in line with management views on the drivers of portfolio trends. These factors were assigned appropriate weights to measure ECL in future economic conditions.

Given the Covid-19 pandemic, the Company has considered additional stress in the central and downside scenarios:

- Central Scenario: Centre for Monitoring Indian Economy (CMIE) released its latest estimate of unemployment rate which was at a elevated level of ~23% for March 2020 end till first week of April 2020 - this was significantly higher from 7.66% published for December 2019. Similarly, CPI which hovered between 3.42% to 5.86% for quarter ending September 2019 and December 2019, respectively, has been projected to peak at 6.54% in September 2020 for stressed central scenario - representing anticipated stress impact due to lockdown and disruption in supply chains and increased prices for food and beverages.
- Downside Scenario: The Company has considered additional stress impact on unemployment rate as estimated by moody's forecast of Covid-19 scenarios for current expected credit loss (CECL).

Notes to financial statements for the year ended 31 March 2020 (Contd.)

44 Risk management objectives and policies (Contd.)

Risk management amidst Covid-19

The unprecedented health scare caused by Covid-19 which led to a countrywide lockdown is going to have a varying impact on different sectors of the economy. Salaried individuals may have to contend with a scenario of reduced income and/or job losses. Corporates, SMEs and MSMEs will struggle on account of reduced economic activities and business rhythm that is no longer efficient due to severe disruption in both demand and supply. All these will lead to major cash flow constraints and erosion in the asset value. These developments in turn will severely test risk management frameworks across the financial sector.

On 27 March 2020, the RBI, in order to provide relief on debt servicing obligations, permitted financial institutions to offer moratorium to their borrowers on instalments falling due between 1 March 2020 to 31 May 2020. With uncertainties caused by Covid-19 pandemic including the pace of easing of the lockdown restrictions, the time needed to restart the economy and attaining some level of normalcy, the credit performance and repayment behaviour of the customers need to be monitored closely.

An analysis of the customer segments seeking moratorium and their past repayment behaviour reflects heightened anxiety from customer. Expectations of elevated default on timely payment of instalments and collection related constraints are likely to result in higher credit costs than witnessed hitherto. The Company has committed for making requisite investment to deepen its collections infrastructure to control its credit costs.

Based on early indicators of moratorium and delayed payment metrics observed in April 2020, the Company has made a contingency provision of ₹ 50 crore in FY2020 including incremental ECL of ₹ 17.11 crore assessed under the stressed macro impact.

ECL sensitivity to future economic conditions
